EDUCATION

Case Western Reserve University Expected May 2022

Bachelor of Science in Computer Science

Concentration: Artificial Intelligence / Software Engineering

Cumulative GPA: 3.7

Computer Science GPA: 4.0

Relevant Courses:

- Taken: Introduction to programming in Java, Data Structures, Discrete Math
- In Progress: Software Craftsmanship, Operating System, Algorithms, Probability, Database Systems

EXPERIENCE

VNG Corporation: AI Software Engineer Intern; May - August 2019

- Initiated and led the development of an agnostic Named-entity recognition (NER) module capturing and resolving date/time text into structured data for Kiki, the first Vietnamese intelligent personal assistant
- Built an algorithm and rule-based system resolving structured time data for Vietnamese Lunar Calendar questions in Haskell and Java
- Turned Kiki into the first Conversational Agent fully support Vietnamese Date/Time (both solar and lunar day)
- The module will be deployed on [Zalo App](#) (100 millions users), [Zing Mp3](#) (50 millions users) and extensible into a tokenizer for KiKi's search engine

PROJECTS

CWRU's Class Search Engine: Spring 2019

- A distributed, multitenant-capable full-text search engine for more than 6000 classes at Case Western Reserve University
- Attempted to let student more flexible in exploring the topics and classes that the school offer instead of just traditionally looking for class name and code on the portal
- Winner of the "Best use of MongoDB Atlas" at Kent Hack Enough 2019
- Built with Elastic Search, MongoDB, Python Scrapy, Docker, Java REST API, and React.js

HowTheMarketWorksAPI: Summer 2019

- An API for [HowTheMarketWorks](#)'s stock market simulation game
- Attempt to do basic trading algorithms with more than 100,000 data points crawled by Python Scrapy

Battery Health Report: Spring 2019

- A software that analyzed how the laptop capacity degrade over time compared to the design capacity
- Extracted raw battery data from Windows and cleaned with R (integrate with Java)

LEADERSHIP AND ACTIVITIES

HackCWRU-2020 Organizer: Case Western Reserve University, Spring 2019 - present

- Organized the university's Hackathon which will be held in Spring 2020 and the Local Hack Day in Fall 2019
- Attended annual Major League Hacking events and Hackathons
- Main Developer and Maintainer for the [HackCWRU-2020](#)'s official website, built with React.js

Github Campus Expert: Case Western Reserve University, Fall 2019 - present

- In training progress to be a GitHub Campus Expert hosted by GitHub to support and grow the developer community on campus

SKILLS

Programming Language: Java, Haskell, Python, R

Software and Frameworks: Haskell Tool Stack, Spring, Elastic Search, Kibana, MongoDB
