EDUCATION

Case Western Reserve University Expected May 2022
Bachelor of Science in Computer Science
Concentration: Artificial Intelligence / Software Engineering
Cumulative GPA: 3.7
Computer Science GPA: 4.0
Relevant Course: Introduction to programming in Java, Data Structures, Discrete Math

WORK EXPERIENCE

VNG Corporation; Software Engineer Intern; expected May - August 2019

- Developing a module capturing and resolving date/time into structured data for the first Vietnamese Question-Answering System at Zalo AI
- Build an algorithm(rule, regular expressions, and lunar calculator) to analyze date/time questions related to Vietnamese Lunar Calendar in Haskell
- The module has a potential to be deploy on the [Zalo App](#) for more than 100 millions Vietnamese users

LEADERSHIP AND ACTIVITIES

HackCWRU-2020 Organizer ; Case Western Reserve University, Spring 2019 - present

- Organize the Case Western Reserve University's Hackathon which will be held in Feb 2020 and the Local Hack Day in Fall 2019
- Main Developer and Maintainer for the HackCWRU-2020's official website, built with React: [coming soon](#)

Case Rocket Team; Case Western Reserve University, August 2018 - present

- Design and build a rocket qualified for the National Association of Rocketry Level 1 HPR Certification
- Design a radio system that allow rocket to live streaming at the 10000 feet altitude for the FAR MARS 1030 - Held in Mojave, CA

Greenhouse and hydroponic room; Project manager, Carney's Future Farmers of America; 2016 -2017

- Proposed and Constructed a first green house and hydroponic for the Carney High School during cultural exchange year in Oklahoma with first batch consisting of 75+ tomato plants and 50 leafy greens

SKILLS

Programming Language: Java, Haskell, R

Software and Frameworks: React.js, Stack(Haskell), MVC, Spring Framework, JSP

PROJECTS

Battery Health Report:

- A software that analyzed how the laptop capacity degrade over time compared to the design capacity
- Extracted raw battery data from Windows and cleaned with R (integrate with Java)
- Built with Java, R, and Spring: github.com/justinphan3110/Battery-Health-Report

Apache Tomcat 9 Free Port

- Free the Apache Tomcat 9 server port(eg 8080) used by other Listening Port or another Tomcat instance
- Save users time and the inconvenience of reset/kill the Listening Port manually when working with JavaEE
- Built with Java, and Spring: github.com/justinphan3110/Apache-Tomcat-9-FreePort

Get Saved WIFI Password

- A software that allows users to get the saved wifi password on Windows that they already signed in before
- Built with Java and Windows Prompt commands: github.com/justinphan3110/Get-the-Saved-WIFI-Password
